

## About ConnexALL®

ConnexALL® breaks the barriers of proprietary interfaces, it provides a single point of management for ALL business systems which need to communicate events and status to many different devices.

ConnexALL® seamlessly integrates proprietary event-based business systems to an ever-expanding list of third-party notification technologies.

If "something happens" and "someone needs to know about it" ConnexALL® is the communications bridge that can intelligently bring the two together.

ConnexALL® is a standards-driven, modular based software engine. It integrates a wide range of communication resources to any business systems. The ability to receive real-time notifications and text messages anywhere in the world gives organizations the competitive edge in decision-making process.

## Bed Management Solution

*Innovative Workflow Bed Tracking System*

### REAL-TIME ALERTS

- Early warning indicators for overcrowding
- Easy to understand icon based system showing empty, occupied, or cleaning status
- Follow patient bed assignments from any static or mobile device

### MANAGEMENT REPORTS

- View patient trends to optimize staffing levels
- Know where occupied beds are during emergency evacuation situations
- Have responders set automatically based on your work schedules
- View reports on staff and unit response efficiency

### IMPROVE BED TURN-OVER

- One-touch notification of discharge with automated alert sent to housekeeping staff
- Prioritize bed turnover to match patient placement priorities in high demand units
- Immediate updates of bed status to maintain patient flow-through

### OPTIMIZE SERVICES

- Reduce waiting room times
- Reduce dietary and pharmacy costs by sending trays to empty beds
- Send services such as specialists, therapists and equipment requests to the right rooms
- Make specific bed assignments while making rounds to individual patient units

ConnexALL® is a highly flexible and scalable integration system, easy to configure, provides an intuitive user interface and includes extensive management reporting.

- Simple icon-driven displays
- Message / Task acknowledgement
- Pre-programmed and real-time event escalation and tracking
- Robust, customizable reporting
