

About ConnexALL®

ConnexALL® breaks the barriers of proprietary interfaces, it provides a single point of management for ALL business systems which need to communicate events and status to many different devices.

ConnexALL® seamlessly integrates proprietary event-based business systems to an ever-expanding list of third-party notification technologies.

If "something happens" and "someone needs to know about it" ConnexALL® is the communications bridge that can intelligently bring the two together.

ConnexALL® is a standards-driven, modular based software engine. It integrates a wide range of communication resources to any business systems. The ability to receive real-time notifications and text messages anywhere in the world gives organizations the competitive edge in decision-making process.

CONNEXALL®

Emergency Management Solution

REAL-TIME ALERTS

- Automatically monitor unlimited number of systems from any location
- Allow authorized individuals to trigger events manually from any location
- Create easy-to-use icons to manage pre-programmed events
- Allow unusual events to be described manually
- Send alerts to any device including: email, pagers, cell phones, monitors, wallboards and paging systems

MANAGING RESPONSES

- Create on-call schedules to manage primary, secondary and back-up responders to receive notification
- Use GPS to track responder or client movements
- Follow event and responses progression in real-time
- Map alert areas or responder locations

ACKNOWLEDGEMENT

- Responders can acknowledge notifications from any location
- Automated escalation if events are not acknowledged
- Manual escalation if a responder is already busy

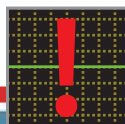

REPORTING

- View response efficiency and effectiveness
- Track individual or facility performance
- Optimize staffing levels based on event trend
- Analyze event frequency and severity trends

NOTIFICATION

- Integrate public and private notification systems
- Automated response to pre-programmed events
- Manage multiple event notifications triggering simultaneously
- Instantaneous notification regardless of means of communication
- Scalable to manage notification to: selected first responders, management team, all affected clients or all people in selected geographic areas

ConnexALL® is a highly flexible and scalable integration system, easy to configure, provides an intuitive user interface and includes extensive management reporting.

- Fire, Police and Medical Emergencies
- Public Infrastructure Closures
- Natural Disasters
- Criminal Activity
- Service Interruption
